

Fix-It Converting to TextMyGov

Citizens in the City of Bluefield can now submit a service request or get info directly by texting the city with our new TextMyGov number: 304.407.3700. To get started, text "Hi" or try another keyword like pothole, debris, or loose animal. For more information, go [here](#)!

If you still have a service request in Fit-It, you can still access that page [here](#). However, Fix-it is being phased out by TextMyGov and will have reduced functionality in the coming weeks.
