## **Fix-It Converting to TextMyGov**

Citizens in the City of Bluefield can now submit a service request or get info directly by texting the city with our new TextMyGov number: 304.407.3700. To get started, text "Hi" or try another keyword like pothole, debris, or loose animal. For more information, go here!

If you still have a service request in Fit-It, you can still access that page here. However, Fix-it is be phased out by TextMyGov and will have reduced functionality in the coming weeks.
